SUMMARY

A recent graduate from the Generation Bootcamp in Junior Software Development with a Bachelor's degree in Earth Sciences (Geology). I have one year of experience caring for a bedridden patient, which has honed my skills in problem-solving, adaptability, and time management. Technically proficient in HTML, CSS, Tailwind, JavaScript, React, Node.js, Express, and MongoDB. I am eager to pursue a career as a Software Developer and contribute to innovative projects while continuously growing and developing professionally.

SKILLS

Technical Skills

Programming Languages: JavaScript
Web Technologies: HTML, CSS, Tailwind, React, Node.js
Database: MySQL, MongoDB

Behavioral Skills

Problem Solving
Adaptability
Time Management
Teamwork

EXPERIENCE

Junior Software Developer Bootcamp

Sep 2024 - Dec 2024

Generation Thailand

- Learned how to build web applications from React as front-end, Node.js as back end, and MongoDB as a Database.
- Learned essential skills for switching careers, such as growth mindset, communication, agile, and teamwork
- Collaborated on an e-commerce project with a team to create a fully functional application, focusing on problem-solving and performance optimization.
- Utilized React with React-router and Axios for the front end.
- Employed Express to manage RESTful API for the back end.
- Used Mongoose to connect to MongoDB for the database.

Caregiver, Lopburi, Thailand

Oct 2023 - Sep 2024

- Cared for a bedridden patient with paralysis at my relative's home.
- Administered medications according to prescribed schedules.
- Provided meals and managed feeding through a nasal tube.
- Performed daily hygiene routines, including bathing and changing diapers in the morning, afternoon, and evening.
